PROFILE

I am an enthusiastic and committed web application developer with years of practical experience creating dynamic and user-focused digital solutions. My journey in the field of web development has been characterized by an unyielding quest for excellence and a dedication to remaining at the leading edge of technological innovation

PROJECTS

Green House Building Project

- Developed a VR experience of a Green House, integrating 3D models created in Blender and Unity. Implemented interactive features and optimized performance for VR platforms..

Image Quality Assessment for Fake Biometric Detection

- Image Quality Assessment (IQA) is one of the statistical techniques used in image processing to determine whether the biometric sample is real or fake. The objective of the system is to enrich the biometric recognition security.

Internship(VR)

Virtual Reality(VR) Internship at SASTRA DEEMED UNIVERSITY**(Jan 2023 – Mar 2023)**

- Developed a Virtual Reality experience focused on building 3D environments for greenhouse models using Unity and Blender
- I Gained hands-on experience in VR optimization techniques, interactive user interface design, and immersive experience building.

EDUCATION

2021 - 2023
SASTRA DEEMED UNIVERSITY

- Master of Computer Application (MCA)

2018 - 2021
PERIYAR MANIAMMAI ARTS AND SCIENCE COLLEGE

- Bachelor of ComputerApplication (BCA)

TECHNICAL SKILLS

- HTML,CSS
- Javascript
- Reactjs and Bootstrap
- C programming
- Python
- UI/UX:Figma
- Git, GitHub

SOFT SKILLS

- Problem-Solving
- Communication
- Strategic Planning
- Team Collaboration
- Time Management

LANGUAGES

- Tamil [Native or Bilingual Proficiency]
- English [Native or Bilingual Proficiency]
